Areas of Expertise

• Component-Driven Architecture • Coloristic Thinking • UI Frameworks best practices • UI Testing best practices • Qualitative Research • Human-Centered Design • Information Architecture • Rapid Prototyping and POCs • Cross-Team Synergy with Communication and Collaboration • Design System and UI Library implementation

Tools

• HTML5 • CSS • JavaScript • TypeScript • Node • React • Angular • Jest • Jasmine • SASS • Tailwind • Storybook • NPM • Cypress • AXE • Lighthouse • VoiceOver • Confluence • Jira • Bitbucket • Git • Github • Figma • Miro

Professional Experience

Cetera Financial Group, El Segundo, CA - *Principal Design Technologist*
2023 - 2024

- Spearheaded the role of a product owner, ensuring seamless collaboration between stakeholders, UX designers, and developers throughout the product lifecycle.
- Designed a robust UI library leveraging Storybook and Angular, enabling consistent and efficient component development.

Ally Financial, Charlotte, NC - *Mid UI Developer*
2021 - 2022

- Executed a comprehensive overhaul of the legacy Enterprise application's codebase using React, Git, Bitbucket, and Jira, transitioning from Ember to React one feature at a time. This effort resulted in improved performance, enhanced maintainability, and a unified front-end technology stack organization-wide.

St Jude Children (Alsac), Memphis, TN - *Mid UI Developer*
2020 - 2021

- Utilized React, Java, JSP templates, Jest, SASS, Storybook, pom files, maven, Adobe Experience Manager, and an internal style guide to develop, update, implement, and test customized AEM components. This allowed the Digital Marketing Team to create web-based fundraising and promotional events rapidly, reducing the timeline from weeks to day.

Code Crew, Memphis, TN - *Programming Instructor*
2019 - 2020

- Instructed and mentored students and teacher assistants using Code.org, App Inventor, Swift Playground, PowerPoint, the three learning styles, public-speaking, and empathic communication techniques, resulting in an 84% success rate in teacher assistants progression to become full-time instructors and 93% success rate in student course retention.

FedEx Services, Memphis, TN - *UX/UI Designer & UI Developer*
2019 - 2020

- Generated, refined, and validated company-wide UI Library components using Adobe Creative Suite, Sketch, Envision, and Figma, ensuring alignment with accessibility standards, diverse digital devices, and development best practices.
- As the Lead Front-end Developer, I spearheaded the development of the subscription-based application. This endeavor involved utilizing Ruby ERB templates, CSS3, and JavaScript for the creation of UI components and employing Ruby on Rails with Redis on the backend. This strategic move allowed our organization to offer subscription-based services, including support, job opportunities, and branding assistance to artistic talent in the Atlanta area, ultimately monetizing these valuable resources.

Education

Bachelor of Science in Coloristics (Psychology), Dominican University of CA

Bachelor of Fine Arts in Graphic Design, Dominican University of CA

UX Research & UX Design Programs, General Assembly

Full-Stack Program, The IronYard

CS50, Harvard Extension School

MS-740 - Microsoft Front End Certification, Microsoft
